Germany - Native Speaker

English – Fluent

Rudy Tan

Senior Blockchain Engineer

I am a highly skilled and innovative Web3 Full Stack Developer with over 4 years of experience in building decentralized applications (dApps) and blockchain solutions. I excel in leveraging cutting-edge web technologies and blockchain protocols to create seamless and secure user experiences. My expertise spans both front-end and back-end development, with a deep understanding of smart contracts, distributed ledgers, and decentralized finance (DeFi). I am committed to staying at the forefront of emerging technologies, continuously learning, and contributing to the evolution of the Web3 ecosystem.

Experience

2023.1 - 2024.5

Fracas Web3 Agency, US | Remote

Senior Blockchain Engineer

- Developed decentralized applications (dApps) on the Solana blockchain.
- Architected scalable and secure blockchain solutions.
- Led a team of developers and conducted code reviews.
- Integrated smart contracts and front-end interfaces.
- Implemented SEO strategies to improve search engine rankings.

2020.6 - 2022.12

KPMG, US | Remote

Senior Blockchain & Full Stack Developer

- Completed big projects on time and got good feedback from clients.
- Implemented fullstack applications using Web3 technologies.
- Built the MEVN, MEAN stack making sure it worked well and was safe.
- Used Next.js to make websites load faster and be easier to find on search engines like Google.
- Made it quicker and easier to release new updates to our software.
- Added blockchain technology to our software, making it more secure and letting us do more things with it.
- Got awards for doing great work and shared what I know with others in the team.
- Developed basic smart contracts using Solidity for Ethereum blockchain applications, under the guidance of senior developers.

2019.4 - 2020.5

TRUSCOVA GMBH, Germany

Senior Frontend Developer

- Developed software applications using the React.js, Next.js and Vue.js, making sure it worked well and was safe.
- Worked with teams to understand project requirements and design features.
- Built responsive and dynamic user interfaces.
- Participated in code reviews and received feedback from senior developers.
- Improved coding skills and followed best practices in software development.

Interests & Hobbies

Passionate about Family

Horse-riding & spending time in nature

Developing our team into star analysts

2018.2 - 2019.3

MAINMATTER, Germany

React Developer

- ♦ Helped make software using MERN (MongoDB, Express, React, Node.js) stack, learning how to build all parts of a program.
- ♦ Worked with the team to understand what the software needed to do and then helped make it.
- ♦ Learned how to use MongoDB for storing data, Express for making the software run, and React for making it look good.
- ♦ Was part of the team and learned how to work together to finish tasks on time.
- ♦ Got feedback from others on my work and learned how to make it better.
